PROFESSIONAL SUMMARY

Analytical and detail-oriented data professional with over 4 years of experience in industrial operations, specializing in data monitoring processes, optimization, and performance tracking. Proficient in Python, SQL, Advanced Excel, and Power BI using Power Query, with a proven track record of enhancing efficiency through automation, anomaly detection, and data visualization. Skilled at translating complex data sets into actionable insights for operational and leadership decision-making.

Expanding expertise in the data analysis domain, with a strong commitment to understanding products and collaborative, fast-paced environments. Recognized for a proactive mindset, continuous learning approach, and readiness to deliver results in a data-driven organization.

EXPERIENCE

Jindal Steel Ltd. (Angul, India)

Technical Analyst | Sep 2021 - Feb 2026

- Designed and deployed enterprise-grade dashboards to track plant efficiency, energy consumption, and maintenance KPIs.
- Extracted, cleansed, and transformed large datasets from multiple sources including SAP.
- Automated recurring reports using Power BI, reducing manual workload and improving reporting timelines.
- Conducted root cause analysis through data modeling and trend visualization, enabling proactive decision-making.
- Collaborated with engineering and operation teams to define key business metrics and reporting standards.

PROJECT

Plant performance monitoring dashboard

- Created a centralized dashboard using **MS Excel (Advanced)** to monitor real time operational KPIs. Demonstrated leadership to make data informed decisions, improving plant efficiency by 15%.

AQI Analytics Project [[AQI Analytics](#)]

- Built a **Power BI** dashboard analyzing AQI trends, pollution hotspots, and pollutant dominance across India, using DAX and Power Query to deliver policy-relevant insights.

Energy Utilization tracker

- Build a **Power BI** dashboard to analyze specific power consumption and unit wise energy performance, leading to cost-saving.

SKILLS

- **Tools and Languages:** Data Analytics (PW Skills certified), Python, Power BI, SQL, MS Excel (Advanced).
- **Data Functions:** Anomaly detection, Process improvement, KPI tracking data visualization.
- **Soft Skills:** Critical thinking, Problem-solving & Attention to detail.

LICENSES AND CERTIFICATIONS

- Pwc + PW skills certification in Data Analytics course [[certification](#)]

EDUCATION

Veer Surendra Sai University of Technology (Burla)

- Bachelor of Technology, Chemical Engineering | **July 2017 – June 2021**

DECLARATION

- Immediate joiner, Open to full-time opportunities in Analyst roles.
