PROFESSIONAL SUMMARY

Analytical and detail-oriented data professional with 4 years of experience in industrial operations, specializing in data monitoring, process optimization, and performance tracking. Proficient in Python, Excel (Advanced), Power BI using Power Query, and SQL, with a proven track record of driving efficiency through automation, anomaly detection, and data visualization. Adept at translating complex datasets into actionable insights for operational and leadership decision-making.

Currently expanding expertise into the tech and SaaS domain through learning Agile and Scrum methodologies, with a strong commitment to understanding product-centric workflows and collaborative, fast-paced environments. Recognized for a proactive mindset, continuous learning approach, and readiness to deliver results in data-driven organizations.

EXPERIENCE

Jindal Steel & Power (Angul, India)

Operations Associate | Sep 2021 – Nov 2025

- **Performed real-time monitoring and analysis of plant data streams** to proactively identify anomalies, detect deviations, and flag inefficiencies—enabling timely intervention and minimizing operational risks.
- **Developed and maintained interactive dashboards in Power BI and Excel** to visualize key production KPIs, enabling leadership to make quick, data-informed decisions.
- **Automated routine data workflows using Python**, significantly reducing manual reporting time and increasing overall data handling accuracy and productivity.
- **Collaborated cross-functionally with operations leadership** to translate data insights into actionable improvements, resulting in measurable enhancements in process efficiency.
- **Maintained data integrity and audit readiness** by rigorously following SOPs, updating workflow trackers, and ensuring alignment with quality and compliance standards.
- **Achieved and sustained SLA targets and quality benchmarks consistently**, demonstrating a high level of ownership, reliability, and attention to detail with minimal supervision.

TECHNICAL SKILLS

- Tools & Languages: Python (IBM Certified), Power BI, SQL, MS Excel (Advanced)
- Data Functions: Anomaly Detection, Process Improvement, KPI Tracking, Data Visualization
- Soft Skills: Critical Thinking, Problem Solving, Attention to Detail SQL

CERTIFICATIONS & PROJECTS

- Pwc + PW skills certified in Data Analytics course
- IBM Certified in Python Programming & Application Development
- Built Bill Management System using Tkinter showcasing GUI and data handling skills

EDUCATION

Bachelor of Technology, Veer Surendra Sai University of Technology (Burla)
